1.Eligibility and Admission Procedure:

A candidate for the admission of programme at M.A. in Physical Education must fulfill the eligibility criteria (norms & standards) directed by the NCTE, University and the directives of the Government of Jharkhand which may changes from time to time. However, a candidate passing Under Graduate Degree (i.e. B.P.E. 3yrs) and who was admitted in the course prior to this Regulation also eligible for admission of this degree course programe.

2.Duration:

The M.A.(Physical Education) programme is of a duration of two academic years, that is, four semesters. However, the students shall be permitted to complete the programme requirements within a maximum of three years from the date of admission to the programme.

3.The CBCS System:

All programmes shall run on Choice Based Credit System (CBCS). It is an instructional package developed to suit the needs of students, to keep pace with the developments in higher education and the quality assurance expected of it in the light of liberalization and globalization in higher education.

4.Course:

The term course usually referred to, as 'papers' is a component of a programme. All courses need not carry the same weight. The courses should define learning objectives and learning outcomes. A course may be designed to comprise Lectures/ Tutorials/Laboratory Work/ Field Work/ Outreach Activities/ Project Work/ Vocational Training/VIVA/ Seminars/ Term Papers/Assignments/ Presentations/ Self-Study etc. or a combination of some of these.

5.Courses of Programme:

The M.A.(Physical Education) programme consists of a number of courses, the term 'Course' applied to indicate a logical part of subject matter of the programme and is invariably equivalent to the subject matter of a "paper" in the conventional sense. The following are the various categories of courses suggested for the M.A(Physical Education) Programme.

- Theory
- Core Course
- Practicum
- Compulsory Course (Track and Field)
- Teaching/Coaching Practices
- Internship

6. Semesters:

An academic year is divided into two semesters. Each semester will consist of 17-20 weeks of academic work. The institution shall work for a minimum of 40 working hours in a week (five or six days a week).

7. Working days:

There shall be working days as per university rule and regulation.

Credits:

The term 'Credit' refers to a unit by which the programme is measured. It determines the number of hours of instructions required per week. One credit is equivalent to one hour of teaching (lecture or tutorial) or two hours of practical work/field work per week. The term 'Credit' refers to the weight given to a course, usually in relation to the instructional hours assigned to it. The total minimum credits, required for completing M.A. (Physical Education) programme is 90 credits and for each semester 20 credits.

Provision of Bonus Credits Maximum 06 Credits in each Semester

| Sr. No. | Special Credits forte Extra Co-curricular Activities | Credit |

Students who have 74% to 65% of attendance shall apply for condonation in the prescribed form with the prescribed fee.

Students who have 64% to 50% of attendance shall apply for condonation in prescribed form with the prescribed fee along with the Medical Certificate.

Students who have below 50% of attendance are not eligible to appear for the examination.

The student must apply to Head of the Institution giving the reason(s) for absence within 8 days of the conduct of the examination along with the necessary documents and testimonials.

11. Pattern of Question Papers and its Nature:

A) Format of Question Paper for 5 Units -

Each Course Papers shall have five compulsory questions (with internal choice for each question) corresponding to five units of each theory course.

B) Nature of Semester End Examination -

- For each Course - 70 Marks
- Duration – 3.00 Hours
- Syllabus is framed into 5 units for each theory course.
- On each unit there shall be a question either long or short or Write notes type answer.
- Number of Questions to be set in each paper shall be in accordance with above information.
- Each theory paper shall have five compulsory questions with its internal choice.
- All the five questions shall have an alternative choice from the same unit in terms of Long or Short or Write notes type answer. However, there is no choice in a separated question.
- Division of marks between long and short answer type question shall be in ratio of 70:30.
- In case of write notes type question, division of marks may distribute equally.

12. Evaluation:

The performance of a student in each course is evaluated in terms of percentage of marks with a provision for conversion to grade point. Evaluation for each course shall be done by a continuous internal assessment (CIA) by the concerned course teacher as well as by end semester examination and will be consolidated at the end of course. The components for continuous internal assessment are;

| | |
|-------------|----------|
| One Test | 10 Marks |
| Seminar | 5 Marks |
| Assignments | 5 Marks |
| Attendance | 10 Marks |
| Total | 30 Marks |

Attendance shall be taken as a component of continuous assessment, although the students should have minimum 75% attendance in each course. In addition to continuous evaluation component, the end semester examination, which will be written type examination of at least 3 hours duration, would also form an integral component of the evaluation. The ratio of marks to be allotted to continuous internal assessment and to end semester examination is 30:70. The evaluation of practical work, wherever applicable, will also be based on continuous internal assessment and on an end-semester practical examination.

13. Minimum Standard of Passing Examinations:

The minimum passing standard for the CIA (Continuous-Internal-Assessment) & External examinations shall be 40%, i.e. 12 marks out of 30 marks and 28 marks out of 70 respectively for the theory courses. The minimum passing for both CIA and External examinations shall be 50%, i.e. 15 marks out of 30 and 35 marks out of 70 marks for the practical courses.

14. Grading:

Once the marks of the CIA (Continues Internal Assessment) and SEA (Semester End Assessment) for each of the courses are available, both (CIA and SEA) will be added. The marks thus obtained for each of the courses will then be graded as per details provided in R. M.A.(Physical Education) 12 from the first semester onwards the average performance within any semester from the first semester is indicated by Semester Grade Point Average (SGPA) while continuous performance (including the performance of the previous semesters also) starting from the first semester is indicated by Cumulative Grade Point Average (CGPA). These two are calculated by the following formula:

$$SGPA = \frac{\sum_{i=1}^n C_i G_i}{\sum_{i=1}^n C_i}$$
$$CGPA = \frac{\sum_{j=1}^N SGPA_j}{N}$$

Where C_i is the Credit earned for the course is in any semester; G_i is the Grade point obtained by the student for the course and n number of courses obtained in that semester; $SGPA_j$ is SGPA of semester j and N number of semester. Thus CGPA is average of SGPA of all the semesters starting from the first semester to the current semester.

15. Classification of Final Results:

For the purpose of declaring a candidate to have qualified for the Degree of Bachelor of Physical Education in the First class / Second Class / Pass Class or First Class with Distinction, the marks and the corresponding CGPA earned by the candidate in Core Courses will be the criterion. It is further provided that the candidate should have scored the First / Second Class separately in both the grand total and end Semester (External) examinations.

16. Letter Grades and Grade Points:

- i. Two methods-relative grading or absolute grading– have been in vogue for awarding grades in a course. The relative grading is based on the distribution (usually normal distribution) of marks obtained by all the students in the course and the grades are awarded based on a cut-off mark or percentile. Under the absolute grading, the marks are converted to grades based on pre- determined class intervals. To implement the following grading system, the colleges and universities can use any one of the above methods.
- ii. The grades for each course would be decided on the basis of the percentage marks obtained at the end-semester external and internal examinations as per following table:

| Percentage | Grade Point | Letter Grade | Description | Classification of final result |
|------------|-------------|----------------|---------------|--------------------------------|
| 85 & above | 8.5-10.0 | O | Outstanding | First class with Distinction |
| 70-84.99 | 7.0-8.49 | A ⁺ | Excellent | |
| 60-69.99 | 6.0-6.99 | A | Very Good | First Class |
| 55-59.99 | 5.5-5.99 | B ⁺ | Good | Higher Second Class |
| 50-54.99 | 5.0-5.49 | B | Above Average | Second Class |
| 40-49.99 | 4.0-4.99 | C | Average | Pass Class |
| Below 40 | 0.0 | F | Fail/ Dropped | Dropped |
| | 0 | AB | Absent | |

17. Grade Point Calculation

Calculation of Semester Grade Point Average (SGPA) and Credit Grade Point (CGP) and declaration of class for M. A. (Physical Education) Programme.

The credit grade points are to be calculated on the following basis:

$$SGPA = \frac{\sum_{i=1}^n C_i G_i}{\sum_{i=1}^n C_i}$$

Example – I

Marks obtained by Student in course MPCC101 = 65/100 Percentage of marks = 65 %

Grade from the conversion table is = A Grade Point = 6.0 + 5 (0.99/9.99)

$$= 6.0 + 5 \times 0.1$$

$$= 6.0 + 0.5$$

$$= 6.5$$

The Course Credits = 03

$$\text{Credits Grade Point (CGP)} = 6.5 \times 03 = 19.5$$

The semester grade point average (SGPA) will be calculated as a weighted average of all the grade point of the semester courses. That is Semester grade point average (SGPA) = (sum of grade points of all eight courses of the semester) / total credit of the semester as per example given below:

SEMESTER-1

| Courses Code. | Credit | Marks out of 100 (%) | Grade | Grade Point | Credit Grade point |
|---------------|--------|----------------------|-------|-------------|--------------------|
| MPCC-101 | 3 | 65 | A | 6.5 | 19.5 |
| MPCC-102 | 3 | 60 | A | 6 | 18 |
| MPCC-103 | 3 | 62 | A | 6.2 | 18.6 |
| MPCC- 104 | 3 | 57 | B+ | 5.7 | 17.1 |
| MPPC-101 | 3 | 55 | B+ | 5.5 | 16.5 |
| MPPC-102 | 3 | 72 | A+ | 7.2 | 21.6 |
| MPPC-103 | 3 | 66 | A | 6.6 | 19.8 |
| MPPC – 104 | 3 | 72 | A+ | 7.2 | 21.6 |
| | 24 | | | | 152.7 |

Examples: Conversion of marks into grade points

MPCC-101 $65 = 60 + 5 = 6.0 + 5 \times (0.99 / 9.99) = 6.0 + 5 \times 0.1 = 6.0 + 0.5 = 6.5$

MPCC-102 $60 = 6.0$

MPCC-103 $62 = 60 + 2 = 6.0 + 2 \times (0.99/9.99) = 6.0 + 2 \times 0.1 = 6.0 + 0.2 = 6.2$

MPCC-104 $57 = 55 + 2 = 5.5 + 2 \times (0.49 / 4.99) = 5.5 + 2 \times 0.1 = 5.5 + 0.2 = 5.7$

MPPC-101 $55 = 5.5$

MPPC-102 $72 = 70 + 2 = 7.0 + 2 \times (1.49 / 14.99) = 7.0 + 2 \times 0.1 = 7.0 + 0.2 = 7.2$

MPPC-103 $66 = 60 + 6 = 6.0 + 6 \times (0.99 / 9.99) = 6.0 + 6 \times 0.1 = 6.0 + 0.6 = 6.6$

MPPC – 104 $72 = 70 + 2 = 7.0 + 2 \times (1.49 / 14.99) = 7.0 + 2 \times 0.1 = 7.0 + 0.2 = 7.2$

SEMESTER GRADE POINT AVERAGE (SGPA) = Total Credit Grade Points

= $152.7/24 = 6.3625$

SGPA Sem. I = 6.3625

At the end of Semester-I Total SGPA = 6.3625

Cumulative Grade Point Average (CGPA) = $6.3625/1 = 6.3625$ CGPA = 6.66875, Grade = A, Class = First Class
